Best Management Practices (BMPs) for Maintaining Tallow Drums

**What to Do:**

**DO** place Tallow Drums:
- On flat, paved surface
- Away from storm drains
- In secondary containment which includes; trash enclosures with berm, drip pans with over head coverage or enclosed containment bins.

**Each time, DO:**
- Secure and lock lids
- Clean up any spills immediately

**DO** lock the lid in place

**Contacts:**

For assistance with spills greater than 1 quart call your housing building manager and report to EH&S:

Glen Cartwright: (650) 723-2407
(Kappa Alpha Theta, ZAP, Terra, Pi Beta Phi, and Tri Delt)

Jim Olsen: (650) 723-4779

Matt Geenen: (650) 723-9266
(576 Alvarado, 1047 Campus, 680 Lomita, BOB, Columbae, Hammarskjold, Italian House, Kappa Sigma, Mars, Muwekma, Sigma Nu, Storey, Theta Delta Chi, Xanadu)

**For releases to storm drains, have the building manager contact the Stanford Water Department:**
(650) 723-2281

Help with BMPs/Training call:
Utilities Environmental Quality:
Erica Kudyba: (650) 736-1946

If you have any questions, please contact Erica Kudyba at EKudyba@Stanford.edu or 650-736-1946.

Best Management Practices (BMPs) for Maintaining Tallow Drums

What **NOT** to Do:

- Do not place Tallow Drums next to storm drains
- Do not place items on top of or leaned against Tallow Drums
- Do not leave Tallow Drum lids open or unlocked
- Do not allow secondary containment to become soiled

If you have any questions, please contact Erica Kudyba at EKudyba@Stanford.edu or 650-736-1946.
